Art Unit: 1724

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-30 and 35, drawn to a method for removing arsenic from water.

Group II, claims 31-34, drawn to a composition.

Group III, claims 36-39, drawn to a method of making a gel.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, a special technical feature which these claims share does not define a contribution over the prior art. For example, the claims of Groups I- III share precipitating composition as the special technical feature, which is considered to lack novelty or an inventive step in view of Farrrah 5,432,077 (see col. 3 line 52 through col. 5 line 48).

A telephone call was made to Susan K. Doughty 4/2/07 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
